

# LocalSolver | studio

A platform for optimization prototypes and applications

Julien Darlay

[jdarlay@localsolver.com](mailto:jdarlay@localsolver.com)

[www.localsolver.com](http://www.localsolver.com)

# LocalSolver

- › Optimization engine
- › Consulting, PoC, development, integration, maintenance, support

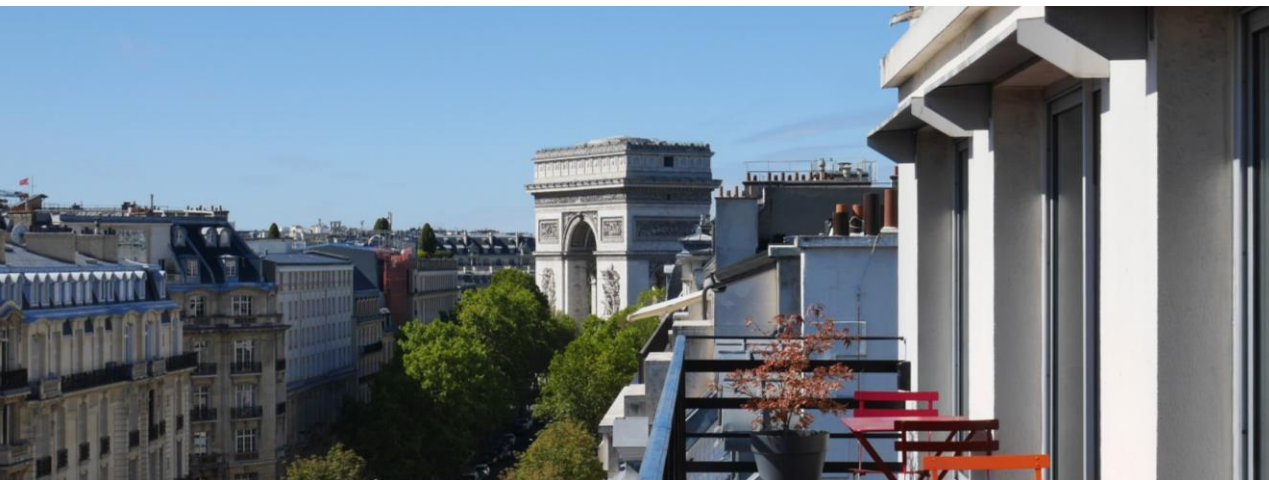

› A generic & powerful solver

› 20 years of experience

› 200 clients, 10,000 users, 25 countries

› Subsidiary of Bouygues (38 Mds€ CA)

› Offices in Paris & New-York

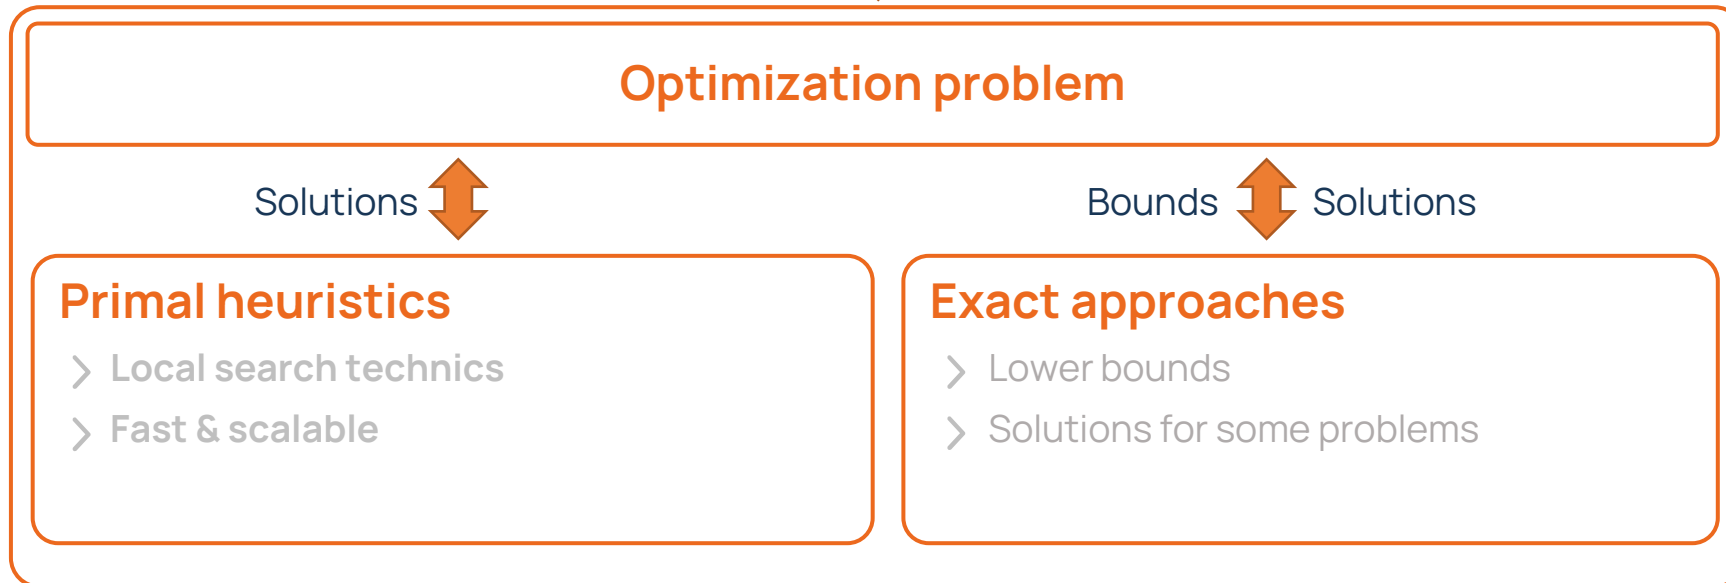

# LocalSolver

Optimization Engine

API

Solver

# LocalSolver

## Optimization Engine

### Version 12.0

- Released in June
- Introduces interval decision variables
- Focus on Scheduling problems (Solutions + Bounds)
- Performance improvement on Routing Problem with TimeWindows
- More info & benchmarks on [www.localsolver.com](http://www.localsolver.com)

# Our product offer

From the optimization engine to LocalSolver studio

## LocalSolver Studio

Deploy

Dashboards  
(maps, charts, KPI)

Geodata

Generators &  
Examples

Online IDE  
Develop, debug, launch

**For engineers and O. R. scientist**  
Run on the user device

## LocalSolver Cloud

Easy remote optimization on the cloud

## LocalSolver Optimizer

Optimization engine

# Our product offer

From the optimization engine to LocalSolver studio

## LocalSolver Studio

Deploy

Dashboards  
(maps, charts, KPI)

Geodata

Generators &  
Examples

Online IDE  
Develop, debug, launch

## LocalSolver Cloud

Easy remote optimization on the cloud

## LocalSolver Optimizer

Optimization engine

### Same as LocalSolver Optimizer

Mostly meets an IT requirement:

- Easy to deploy
- Server managed by LocalSolver
- Cheaper for the end user

Objective : run optimizations without having an impact on architecture or other services

# Our product offer

From the optimization engine to LocalSolver studio

## LocalSolver Studio

Deploy

Dashboards  
(maps, charts, KPI)

Geodata

Generators &  
Examples

Online IDE  
Develop, debug, launch

**For data scientist, data analysts,  
advanced users**

Objective: A unique tool to develop, test,  
prototype, visualize quickly solutions.

## LocalSolver Cloud

Easy remote optimization on the cloud

## LocalSolver Optimizer

Optimization engine

# Why LocalSolver Studio ?

*« I do a lot of analyses, prototypes and I need an integrated environment where my engineers can exchange and visualize the solutions of our optimization models »*

## OPTIMIZATION TOOLS

- Do not support all the LocalSolver formalism
- Focus on optimization
- From our competitors

## GENERIC TOOLS (notebooks)

- Not easy to use for optimization
- Python based
- Mixed feedbacks from our clients

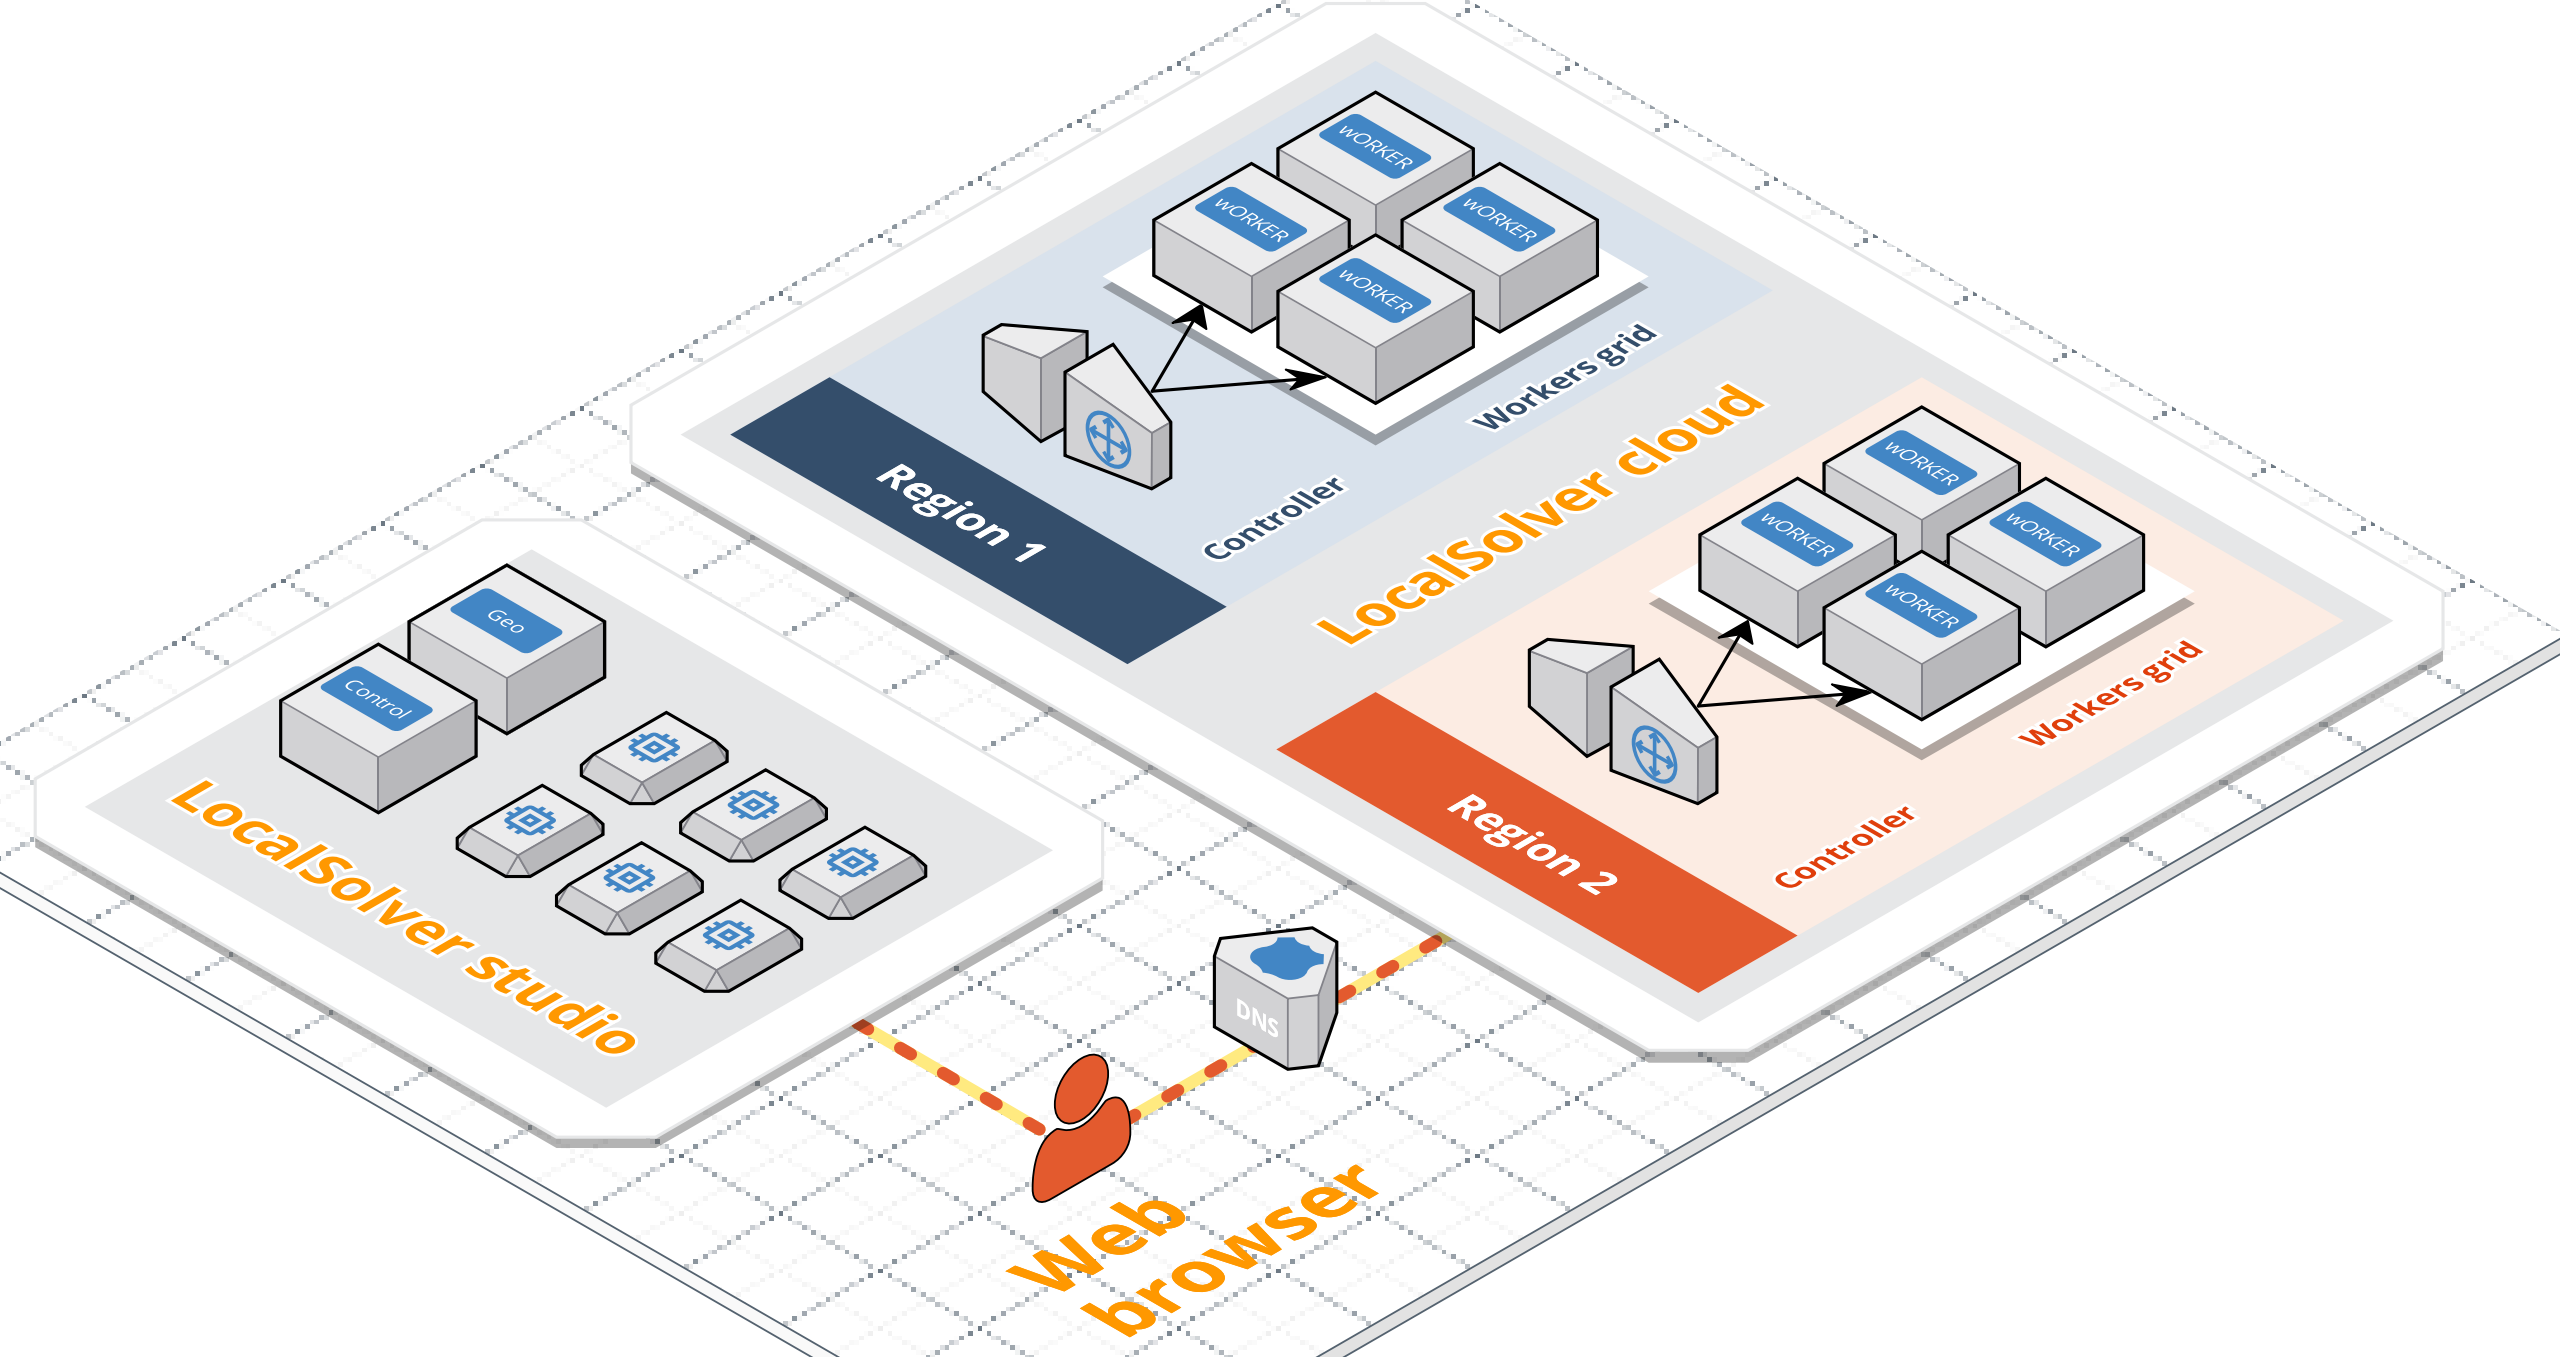

# LocalSolver studio

## Demo
